

Your Automation & Security Expert

About VU Shield

Backed by experts with International experience, VU Shield addresses the market need for an experienced solution provider in the domain of automation and high end security solutions.

Our association with leading local and international brands in the surveillance industry along with our expertise in providing solutions that meet customer demands and budget, VU Shield aims in being your trusted long term partner for all your automation and surveillance requirements.

AXON BODY 3 CAMERAS

Axon Body 3 isn't just a camera: it's a rugged communications beacon front-and-center on every call. Featuring our new Axon aware technology and an LTE connection that enables real-time features like live streaming, Body 3 empowers officers with more support in the moment. Coupled with enhanced low-light performance and reduced motion blur, that means clearer evidence in the now, more efficient AI-powered processes after the fact, and most importantly, safer communications in the long run.

AXON TASER GUNS

Designed by law enforcement for law enforcement, the TASER X2 incorporates agencies' most requested capabilities, such as a backup shot, dual lasers and the ability to display a warning arc without removing the cartridge. A dependable piece of law enforcement equipment that's feature-rich, simple to use, and easy to transition to from previous models.

DRONES

We offer Ideaforge drones, with the highest quality & range, which ensures consistent results across defence, homeland security and enterprise applications. Our Drones can be used for Surveying, Mapping, Security & Surveillance, Inspection, Photogrammetry, Traffic Management, Crowd Management, Disaster Relief, Harsh Environment Operation, Supply Drops, Agri- cultural Industry, Mining Industry, Construction & Real Estate Industry.

ANTI DRONES

Phantom Technologies has developed and created a drone jammer – a technological response to this type of threat. Phantom's drone jammer's concept of operations relies on early detection of the drone threat by scanning the sky looking for hostile drones.
